

# **MOSPHERA**

***CanCham Show&Tell***

# **WHAT IS IT?**

## ***Mosphera – The Tactical Micro-Mobility Platform from Latvia***

***Latvian Innovation.  
Battle-Tested in Ukraine.  
Ready to Scale Globally.***

- Fully electric 72V platform
- Up to 300 km range
- Silent, rugged, and foldable
- Developed and built in Latvia

***Yeah, it folds!***

## WHO USES IT TODAY?

### *Trusted by Those Who Operate Under Pressure*

- In use by Ukrainian armed forces since 2022
- Operated by Latvia's Constitutional Protection Bureau
- Deployed by State Police anti-drone and tactical units
- NATO registered: NSN, NCAGE | Certified: **CE** **RoHS**

*Trusted by professionals*

# **ENHANCING OPERATIONS ON NATO BASES**

## ***Micro-Mobility That Works at Base Level***

- Staff movement between zones
- Patrol of internal and perimeter roads
- Light cargo or tool transport
- Quick deployment of medics or technicians
- Optional trailer expands transport capacity
- Road-legal in Latvia via CSDD registration
- Silent operation across all terrain types

# ***WHY IT MAKES SENSE FOR CAF LATVIA***

## ***A Practical, Local Solution for Stationed Forces***

- Built and supported in Latvia (Liepāja production)
- No special maintenance or training needed
- Fully road-legal (CSDD)
- Can be procured as a regular civilian product, suitable for local operational use

# **LET'S TEST IT TOGETHER**

## ***Seeing Is Believing – Let's Try Mosphera on Base***

- Trial offer for international forces stationed in Latvia
- Tailored to base needs – tech support included

***Let's Hop On It.*** Contact: [romans@mosphera.com](mailto:romans@mosphera.com) | [mosphera.com](https://mosphera.com)
